

Where is God?

Often times when things go wrong in life," people tend to wonder where is God?" Is He really there? If you want to be certain of where God is in your life, you must first allow the power that is the Spirit of God, to take up residence inside of you and to be your first Love. You must no longer deny that power. When we decide to exchange control of our life, for a life guided by His control, we immediately become aware of His presence. Giving up contrary deeds, by the power of water in the name of Jesus Christ, old ways are passed away and you receive "Christ in you". Now as your God, Jesus becomes and facilitates your hope of happiness, gratification, exaltation, prosperity, achievement, and more by the will and power of the Spirit of God. Then you can know that God is in you in the midst of your situation. He is there with the sum of what will prove to be a prosperity of purpose, and ANSWERS. Then "you should call and God will answer". He will begin to make sense of things that before, you could not understand. He will expand your thoughts, and life, including worldly goods. You will never again have to say; "where is God?", because God will be in you.
